## Why schools choose us?

- **High Quality** All Timber Tots products are manufactured at our state of the art workshops right here in Limavady. Now in our 18<sup>th</sup> year of trading and drawing on generations of woodworking tradition we select only the best timber and take care to manufacture high quality, durable products that last and last.
- **Safety** All Timber Tots products comply with the Playground Safety Standards BSEN 1176.
- **We Listen** Customer feedback is extremely important to us, helping to continually improve our products and expand the range with equipment that is relevant for the needs of the modern school. For example we no longer paint any of our products, relying on pre-coloured roofs and trims to give a splash of colour if desired.
- **Value for Money** Buying direct from the manufacturer means that you get more for your money, long life products at the lowest possible cost.
- **Sustainability** For example, all Timber Tots products are delivered directly with no packaging, cutting down on waste, and reducing your impact on the environment.
- **Buy Local** and benefit from fast delivery times while helping to support the local economy and jobs in our community.
